The plugin is really good! An alternative for those who do not have databases at their disposal. Although synchronization takes about 5 seconds to occur when switching servers.

How to disable vault co9nection ? PLEASE HEALP .
Sep 14, 2018

> **Author's Response**
> At this time you cannot disable Vault sync, since it's the main component that the plugin syncs

The vault integration makes it very easy for me, and I love not having to use a MySQL database to copy the files across. This plugin does it safely through the Bungeecord's message system, so files don't get corrupt.
